ADDED VALUE

More than just “standard”: GN containers by B.PRO Catering Solutions.

More benefits.

Selection, quality, price and performance: With B.PRO Gastronorm containers, everything fits. And from goods receipt to food serving, everything runs like clockwork with them.

More selection.

The entire Gastronorm system from B.PRO offers more than 200 containers, lids, trays and cooking inserts. In stainless steel or polycarbonate. In all common sizes and depths. And for all application cases in the catering industry.

More quality.

Quality from B.PRO remains in form for the life of a kitchen. And more than pays for itself.

More experience.

As the first German manufacturer, with approximately 60 years of experience, B.PRO produces first-class Gastronorm containers. Always on state-of-the-art systems. Always with quality made in Germany.

**Immediately
available
from stock.
From 1 piece.**

HIGHLIGHTS

B.PRO stainless-steel Gastronorm containers – last for the life of a kitchen.

That makes them so strong:

- Rugged and dimensionally stable, made of stainless steel (AISI 304)
- Extra stable thanks to the circumferential edge stamping
- First-class finish with burr-free edges
- Dishwasher-safe
- Temperature-resistant from -40 °C to +280 °C
- Tasteless and odourless

- Corrosion-resistant
- Easy cleaning and optimum hygiene thanks to the smooth, non-porous surface and large corner and bottom radii

And especially practical:

Each part can be ordered directly from stock from a quantity of 1 and is available in an extremely short time.

Gastronorm containers.

In all common sizes and depths.
For all applications.

Ingeniously practical. Down to the last detail.

Quality made in Germany.

Approximately 60 years of manufacturing experience is the best guarantee for particular quality.

Unmistakeable.

Important features are burned in on the back with a laser: size, depth, volume, standard and date of manufacture. And on the front in the corner the B.PRO seal of quality.

Easy to stack.

Exact corner finishing and the stacking collars prevent jamming and wedging during stacking and destacking.

Leak-tight. Innovative.

The stainless-steel sealing lid with a silicone seal prevents spilling during transport.

More comfort.

The all-round stacking collar is already standard from a container depth of 40 mm.

Extensive accessories – the right solution for any requirement (from page 11).

GN-B 1/1-100, stainless steel

Gastronorm containers with U-handles

Small extra – big effect: the universal U-handles.

- Two containers can be carried at the same time without tipping either
- Heavy containers are easy to carry
- Filled containers are easy to hook in
- Effortless transferring
- Safe removal of hot containers
- Stackable, even when full

CHIC & STYLISH

The **B.PRO Buffet Line** sets the right scene for delicious food.

On elegant black: with these Gastronorm containers, any food puts on a great performance – regardless of whether it's fresh salad and cool deserts or savoury roasts and fine vegetables.

Accustomed great variety:

The containers are available in 15 Gastronorm sizes matched to the presentation of cold and hot food.

Accustomed high quality:

The satin-finish enamelled surface is absolutely harmless for all food and foodstuffs.

The stacking collars enable easy stacking and destacking. Without wedging and jamming.

The most important product information is burned in on the back with a laser. And the corner bears the seal of quality on the front: B.PRO.

Extraordinary advantages:

- Easy cleaning due to the extremely smooth surface
- Suitable for the combination steamer thanks to high temperature resistance
- Up to 50% lighter than GN containers made of porcelain
- Little danger of breakage – reduced replacement costs
- Particularly colour-fast surface, still attractive after many uses
- Simple insertion into shelf trolleys or tray racks due to thinner material

Extraordinarily practical:

Food can be stored and regenerated, transported and presented in the combination steamer in one and the same B.PRO Buffet Line container. Completely without transferring and additional handling.

ENTHUSIASM

Cooking, roasting, steaming, baking and presenting – the right solution for any use.

Perforated GN-P containers and G-KEN cooking inserts in the GN format – exactly right for energy-saving cooking, blanching, and steaming, for straining and draining.

- The perforation shortens the cooking and cooling times
- Side perforations are available from a depth of 65 mm – for quick cooking in larger containers

GN trays (BZG) with extra-smooth edge: appetising, attractive presentation of food – with smooth edge for extra hygiene.

Specially annealed GN trays (BZG-G): extra-sturdy and temperature-resistant for the combination steamer.

First gratinate and then serve directly on the tray – it's easy for you.

Granite-enamelled GN trays with black surface (GN-E) – so that everything turns out nice and crispy/crunchy when roasting and baking:

- Excellent heat transmission
- Special surface ensures optimum browning from above and below
- Easy cleaning due to extremely smooth surface
- Ideal for the combination steamer

GN-P 1/1-40 Gastronorm container, perforated, stainless steel.
For cooking, steaming and straining

BZG 1/1-40 Gastronorm tray, stainless steel.
For food presentation

G-KEN 1/1-145 Gastronorm cooking insert, stainless steel.
For hooking into GN containers

GN-E 1/1-40 Gastronorm tray, black sheet metal, granite-enamelled.
For roasting and baking

Complete overview – the transparent polycarbonate B.PRO GN containers provide an overview.

It is clear at a glance where the salad is and which container the vegetables are in. Without searching for long.

And those are by no means all advantages.

- Lightweight, yet extremely stable
- Can be used from -40 °C to +100 °C
- Odourless and tasteless
- Break-proof, rugged and dimensionally stable
- All sizes from 1/1 to 1/9 and various depths

GN-K 1/3-100 Gastronorm container, polycarbonate

GD-KL 1/3 Gastronorm lid, polycarbonate

See how much is in there.

All synthetic GN containers feature a litre scale.

See what's in there.

And the best thing is: the transparent polycarbonate lid. They also fit on the stainless-steel GN containers from B.PRO Catering Solutions in all sizes.

CLEAN. CLOSED.

Stainless-steel lids are the ideal addition to any GN container.

They simply fit:

- In all sizes from 1/1 to 1/9
- Outstanding stability thanks to special stamping
- Easy reaching in and safe handling due to large, ergonomically shaped handles
- Stackable
- All stainless-steel lids also feature a practical ladle cut-out
- The universal hinged lid for opening on both sides reduces heat loss
- Especially flat lid without handle – ideal for Cook & Chill

GN lid with handle
GD 1/1, stainless steel

GN lid without handle
GD-F 1/1, stainless steel

GN lid for GN container with U-handles
GD-B 1/1, stainless steel

GN lid with hinge
GDS-U 1/1, stainless steel

Takes every curve without spilling.

GN lids with seal (GDD):

Due to the innovative mechanical form fit of the GN lids with seal (GDD), the silicone seal and stainless-steel lid remain permanently connected. As a result, the lid remains firmly on the edge of the container and does not fall into the food – even if it is transported swiftly around the corner. Even with soups and sauces.

The stainless-steel GN lid with silicone seal (GDD):

- For B.PRO stainless-steel GN containers in sizes 1/1 to 1/6
- Food-safe and temperature-resistant from -40 °C to +180 °C
- Easier removal thanks to ventilation hole for pressure compensation
- Minimisation of the risk of accidents when stacking closed containers thanks to the slip-resistant effect of the seal on the top of the lid

A B.PRO innovation:

The mechanical form fit between the seal and lid – long lasting and heat resistant.

Gastronorm lid with GDD seal, stainless steel

ST 3 GN support bar,
stainless steel

G-KELB 1/1 insert base,
polycarbonate

G-ELB 1/1 insert base,
stainless steel

Even better – thanks to first-class accessories for practical every-day use.

GN support bars connect smaller GN containers to the size 1/1.

Insert bases made of stainless steel or polycarbonate create distance between food and the bottom of the container. Water can drip off into the container and washed lettuce or fruit does not become limp or soggy.

GN grates for Gastronorm-compatible storing and transporting bowls, dishes,

cups and plates – also with non-slip Ril-san coating. Stainless-steel GN grates are temperature-resistant up to +280 °C and suitable for grilling.

Basic equipment for the combination steamer: We have put together three sets suitable for all common units, which are a perfect fit for all standard tasks at an especially advantageous set price.

GR 2/1 grate,
stainless steel

Confusion is not possible: B.PRO GN container with individual company name or logo.

- Individual text or logo
- Easy to read, high-quality laser marking
- Permanent and dishwasher-safe
- For all GN containers and lids
- From as little as 1 piece

Storage and transport for Gastronorm lids with seal.

The GDD top-mounted frame is the ideal solution for the correct storage, drying, transport and dispensing of Gastronorm lids with form-fitting seal. It can hold up to 30 GN 1/1 Gastronorm lids or a large variety of smaller lids.

B.PRO GASTRONORM CONTAINERS. DIMENSIONS AND COMBINATIONS

crosswise

GN depths

Detailed information on volumes and filling amounts can be found on page 26.

All Gastronorm containers comply with the European standard EN 631
