\* corrosion-resistant in compliance with DIN 18867-8

## B.PRO Kids serving trolleys

The new serving trolleys make catering at nurseries and schools child's play. With its low height, young guests can reach all surfaces of the trolley with ease.

The trolleys are also very safe to use as the curled edges prevent injury. The serving trolley has a sturdy bumper rail and an antidrumming mat has a noise-insulating effect.

The trolley is available in various versions, naturally also with panelling.

**B.PRO:**  
**Move more with a systematic design.**

## The perfect complement for a harmonious ambience

### 12 colours available

The panelling colours can be chosen to match the BASIC LINE food serving system and the B.PRO COOK front cooking station.
