NEW FOR 2026

Fresh ideas for serving and transporting food.

BASIC LINE

Improved cooling technology and optimum hygiene handling.

For the **BASIC LINE SK** with active contact cooling and for the convection-cooled **BASIC LINE UK**.

The **BASIC LINE SK** modules with active contact cooling boast significantly improved refrigerating capacity. Delivering stable temperature control from +4°C, they ensure greater efficiency and consistent cooling in everyday use.

For the convection-cooled **BASIC LINE UK**, handling and cleaning have both been simplified.

The cooling tray is now made of individual segments that are easy to remove and clean in the dishwasher. Integrated ventilation grates ensure optimum cool air circulation and prevent food from falling into gaps during serving.

Thanks to the standard height adjustment, GN containers can be flexibly positioned on the **BASIC LINE UK** or presented at an angle – ideal for a clear and attractive presentation of

BASIC LINE UK with height adjustment

food. Optional insert bases for positioning bowls and hanging frames for smaller GN containers round off the system.

For the following models

Model	Order no.	Kids model 	Order no.
Models with active contact cooling			
SK-3	381879	SK-3 Kids	381899
SK-4	381880	SK-4 Kids	381900
Models with convection cooling			
UK-3	381881	UK-3 Kids	381901
UK-4	381882	UK-4 Kids	381902

BASIC LINE

Fold-down sneeze guard for greater flexibility.

With the new BASIC LINE fold-down sneeze guard, you can **switch between service and self-service during operations without the need for additional tools**. Accordingly, the

BASIC LINE can be adapted to different workloads, times of the day or personnel resources at any time without the need for conversion work. The fold-down sneeze guard is **available as an option for the**

closed Standard or Highline sneeze guard of BASIC LINE modules W, SK, UK, N (not N-V).

Highline sneeze guard

Standard sneeze guard

BASIC LINE

Diagonal serving: Child-friendly and inclusive.

The new **BASIC LINE Kids diagonal heated servery counter** has been developed especially for daycare centres and schools – with a significantly improved user experience for children and childcare staff.

- Smaller distances between the basins make food easier to reach. Users can also access the food from both sides, supporting flexible processes in school and daycare catering.
- The ergonomic serving height of 750 millimetres makes it easy for children to reach food and also ensures optimal accessibility for wheelchair users, as no tray or plate slide is required.
- The cover can be optionally widened for greater convenience and space when collecting trays. The rounded shape also specifically increases safety – an important aspect when being used by children.
- The rounded corners of the new sneeze guard also reduce the risk of injury and emphasise the child-friendly safety concept of the BASIC LINE Kids diagonal.

New modules

BASIC LINE

Resopal Basic tray/plate slide for daycare centres and schools.

A solution for trays and plates

The new Resopal Basic tray/plate slide extends the BASIC LINE system as an economical shelf solution for daycare centres and schools, thereby ensuring functional and aesthetically pleasing food serving areas.

Additional storage surface

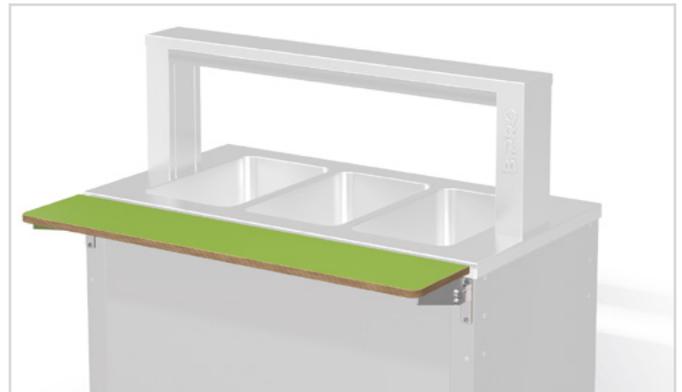

The shelf extends the BASIC LINE serving system at the front and offers additional storage space for trays and dishes – facilitating a structured and smooth process.

Rugged and practical

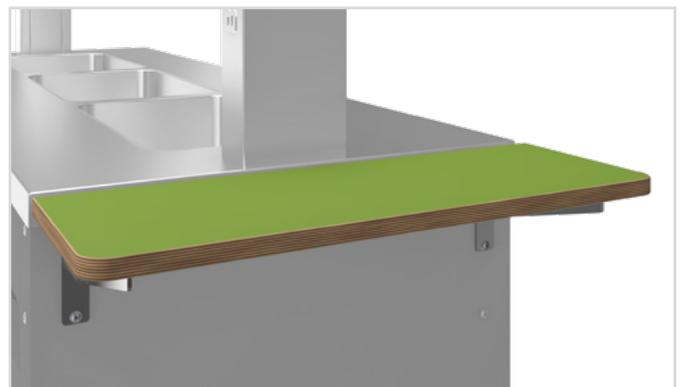

The shelves are made of waterproof chipboard and have an ABS edge with multiplex printing. The surface is covered with Resopal laminate and is available in 12 colours (see below).

System compatibility

The tray/plate slide is available for BASIC LINE modules 3, 4 and 5. The model for module 5 is compatible with BASIC LINE WQ-3.

DISPENSERS

Great idea: Five new dispenser models are now available. For improved safety, efficiency and convenience in commercial catering.

Safe for children's hands – no risk of burns

The new heatable Kids versions have a special bonus: Operating at a fixed temperature setting of 44°C, they keep plates warm – at a pleasant temperature, safe to touch and ideal for use in schools and daycare centres.

- Plates kept at a constant temperature – perfect for hot meals
- Short heat-up time thanks to convection heating
- Fixed temperature – no adjustment possible

New universal dispensers

UNI 59/29 Kids unheated

Kids universal dispenser, unheated, closed model (working height 750 mm), made of corrosion-resistant steel, with synthetic castors, corrosion-resistant in compliance with DIN 18867-8

Order no. **575629**

UNI-H 59/29 Kids heatable with convection heater

Kids universal dispenser, heatable (convection), closed model (working height 750 mm), made of corrosion-resistant steel, temperature fixed at 44 °C, with synthetic castors, corrosion-resistant in compliance with DIN 18867-8

Order no. **575630**

New plate dispensers, heatable with convection heater

TS-UH1 18-33 heatable with convection heater

Plate dispenser made of corrosion-resistant steel, heatable (convection), square plate tube, capacity 80 plates (working height 900 mm), temperature can be regulated from +30°C to +110°C, with synthetic castors, corrosion-resistant in compliance with DIN 18867-8

Order no. **575626**

TS-UH1 18-33 Kids heatable with convection heater

Plate dispenser made of corrosion-resistant steel, heatable (convection), square plate tubes, capacity 60 plates (working height 750 mm), temperature fixed at +44°C, with synthetic castors, corrosion-resistant in compliance with DIN 18867-8

Order no. **575627**

TS-UH2 18-33 Kids heatable with convection heater

Plate dispenser made of corrosion-resistant steel, heatable (convection), square plate tubes, capacity 120 plates (working height 750 mm), temperature fixed at +44°C, with synthetic castors, corrosion-resistant in compliance with DIN 18867-8

Order no. **575628**

B.PROTHERM K

Easy cleaning: The proven B.PROTHERM K front loaders featuring convection heaters that can be removed without tools.

All front loaders with convection heater are now also available with a removable heating module that comes with LOXX quick-release fasteners.

- The heating module can be removed and installed without the need for tools.
- With the heating module removed, the front loaders with door are dishwasher-safe.

Simplifies and speeds up the cleaning process.

Retrofit set BPT 420/620 KBRUH heating module	134288	134289	134290

Retrofit set for all existing B.PROTHERM 420 K and 620 K models:

Simply loosen six screws on the old heating module and screw on the new installation frame.

The set includes:

- Heating module with quick-release fastener (LOXX)
- Installation frame for the door

MCS KIDS

Mobile clearing station. Now also available in low-height version for children's catering.

Helping to clear away after meals is an important aspect of learning how to deal with resources in schools and nurseries. The clearing station offers a simple and organised solution for sorting trays, plates, cutlery and glass as well as residual waste and paper. Easily manoeuvrable castors guarantee a smooth journey back to the dishwashing area.

Drip tray for depositing glasses and cups

- Made of stainless steel, fits on the top shelf, for glass rack, liquids drain into the drip tray

Hanging frame for GN containers

- For hanging on the side for GN containers

Shelf for trays

- Shelf for depositing trays, quick and easy to attach

SW MCS 10x6-2 Kids

incl. 2x GN-B 1/3-150, 2x shelves 1000 x 600 mm
Dimensions (LxWxH): 1100 x 700 x 800 mm

Castors 125 mm in diameter, 4 steering castors, 2 of which have brakes, plastic DIN 18867
Order no. **575623**

Panelling for SW MCS 10 x 6-2 Kids, 3-sided, coloured

Thin sheet, electrolytically galvanised on both sides, powder-coated in various colours, for hooking on serving trolleys, can be completely removed for cleaning

Order no. **392574**

SHELF TROLLEYS

Space-saving version for 1/1 GN.

RWRR 160 shelf trolleys

When empty, can be pushed into each other to save space, capacity: 18x GN 1/1 or 36x GN 1/2, Dimensions (L x W x H): 460 x 613 x 1645 mm

Castors 125 mm dia., 4 steering castors, 2 of which have brakes, galvanised steel
